

Role title	Plumber
Department	Operations
Business unit or function	England & Wales Hire
Role reports to	Service Manager/Supervisor
Roles managed	N/A

Purpose of the role

Refurbish and fit out the complete range of Portakabin buildings to the highest possible standards, specialising in the area of plumbing.

Accountabilities of the role

- Ensure compliance relevant Health and Safety practices and all applicable legislation to encourage and maintain zero harm environment and culture.
- Design and install cold water supplies, drainage and sanitation, hot water and heating systems incorporating all types of plumbing materials.
- Conduct work activities on unvented water heating systems.
- Carry out all aspects of testing and inspection of plumbing installations, including the completion of appropriate documentation/certification.
- Conduct fault finding and rectification of existing systems both on and off site.
- On occasion supervise the work of sub contract labour assessing the suitability of their work.
- Prepare units for safe transport
- Install / Dismantle buildings e.g. connections to utilities, staircases, linkways following the supplied lift plan to move the building onto or off transport.
- Support craning in/out of buildings.
- Be thorough in the separation and segregation of waste to meet environmental requirements
- Attend rectifications at client sites, interacting with our customers in a professional manner.
- Apply lean principles and techniques to help and contribute to your team delivering and exceeding our targets.
- Accurate recording of work activities to ensure correct allocation of costs to projects.
- Assist where required in the general fitting out and refurbishment of buildings both on and off site.

Competencies, Skills, Qualifications & Experience

Essential attributes are the minimum requirement for a role holder. Without these attributes, the role could not be performed. **Desirable** attributes would enable the candidate to perform more effectively, but they are not critical to the role.
